I have another meeting from 9-12 on the 5th. Can everyone do the afternoon?

Subject: EPA-BLM Coordination Meeting on Upper Animas
When: Wednesday, February 05, 2014 9:00 AM-10:30 AM (UTC-07:00) Mountain Time (US & Canada).
Where: EPA Offices in Denver

All - Initially Steve Way set up a call regarding some water quality samples that BLM had collected on Needle Creek last year. In the mean time, EPA has been looking at having USGS doing another expanded round of stream sampling using the mini-sippers. It would probably be a good idea to have a coordination meeting at the same time to discuss plans for this coming field season.

EPA won't be ready by this date to share the eco-risk assessment but it would be a good idea for EPA and BLM to discuss other issues regarding the Site.

Please let me know if you can make it and Kay if you will attend in person or will attend via conference call. If Feb. 5th doesn't work in the AM, let me know if the afternoon on Feb. 5th would work.

Thanks
